

FREE Mini Seascapes Tutorial

Photo Reference Credit:
Sue Kerrigan-Harris

Welcome to your FREE Seascape Tutorial. This is a taste of exactly how my tutorials work. You get a PDF just like this one with all the information about paper, colours, size.

SIZE: I will be doing this piece 5x7 inches. You'll need a piece of pastel paper roughly 6x8 inches so you can tape it to your board.

LIVE TUTOR SUPPORT: Included with all my paid tutorials is weekly LIVE Support via Zoom. This FREE tutorial does not qualify.

You'll need:

A damp cloth to keep your fingers clean

I'll be using Wet & Dry Paper 1200 GRIT from the Hardware Store. Please use any pastel paper that you have available to get you started.

MY TOP TIP: This could well be your first pastel painting. Sit back with a cuppa and enjoy watching the video. Then gather your supplies and have a go. Be kind to yourself and be curious.

What You Will Need:

I choose my initial palette by printing the photo reference then holding the pastel pencils and sticks next to the colours. Remember that when you start a painting your palette is your best guess and it's okay to switch colours in / out of your palette.

Remember that it's okay to have different colours than I'm using and it's okay if you have a different stick and pencil sets.

Soft Pastel Supplies

A yellow, pink and blue pastel stick for the sky

3 different value blues for the sea.

Something to blend with like a packing noodle (the type found in parcel deliveries) a section of pipe insulation or a section of a pool noodle.

Your darkest blue or black pastel pencil

Tools:

- Pastel Paper 6x8 inches.
- Masking tape
- Knife & sandpaper or sharpener
- Dust blower (not essential)
- Board/Easel
- Blending Tool
